Any man who can tell you that the consciences of her male patrons are more caloused than their hands.

If he is driving for you, you call him a chauffeur. But if he is driving at you, you call him something entirely different.

It isn't hard to please a woman if you can only make her decide what she wants.

There are a lot of Helpful people in this country including the group of wealthy women who never earned a dime in their lives, who get together and decide that a working girl can live on \$6 a week and be decent.

A highbrow claims that morals improve as the amount of clothes worn grows less. Then this is the most moral period in the history of civilization.

If you don't believe it, get out your dictionary and you will discover that "Mars" is the word that follows "Marry."

The man who leaves the house with a groan in the morning, and slams the door behind him, has a bad day coming.

A lot of people are inclined to knock the junk the English Poet Laureate is grinding out about the war. But the stuff isn't so bad if you will read it with the knowledge that the P. L. gets the magnificent salary of \$350 per year.

A statistician says that only five in every 100 marriages are happy. This will make every married couple in the country wonder who the five are.

A woman doesn't begin to show her age until she begins to try to hide it. Hush money does more talking than any other kind.

When you see an overdressed woman escorting a man who looks like a door mat, you know who is boss in that house.

A few years go a long way in a woman's age.

It isn't "rocks" that cause most of the shipwrecks on the Sea of Matrimony. It is usually a lack of "rocks."

Men are not as chummy as women. You never saw a man go across the street to a neighbor and borrow his hair for the evening.

Just because a man wears a No. 8 hat is no sign that he is broad-minded. We admire a man who says what he thinks, if he says it about other people.

DRUGS AND HEALTH.

The Federal public health service points out that during the last thirty years there has been an increase of more than 100 per cent in the deaths from diseases of the heart, kidneys and blood vessels. It also calls attention to the fact that the American people are spending \$500,000,000 a year on drugs and medicines.

It may be, as the experts of the department intimate, that "drug intoxication" is a powerful contributing cause of these ailments. Certainly the fact that drug consumption has kept pace with the increasing mortality shows that a good many million dollars' worth of drugs are not doing what was expected of them.

The drug delusion, like all superstitions, dies hard. If we could cure diseases merely by "taking something for them," there would be little sickness left in the world.

The best physicians nowadays give the least medicine—and the most information calculated to help the patient keep himself well.

SEVEN THOUSAND WINDOW DISPLAYS.

Evidence of a Unique Fraternity

J. C. Pecor's drug store, of this town, in connection with nearly seven thousand large retail druggists all over the United States, is joining in making a big display of Vinol during this week of November first, which indicates the fraternal conditions which exist among the retail druggists who are Vinol agents all over the United States; in fact they are organized into what is called the Vinol Club, throughout the country, from coast to coast. Twice a year they make simultaneous window displays of this valuable preparation, for which they have enjoyed the exclusive sale for many years.

Traveling salesmen and tourists often remark and wonder how it is that they see such fine displays of Vinol in every town where they go during Vinol Week—spring and fall, and ask what it means.

THE CLASSIFIED EGG.

"When I arose to speak," related a martyred statesman, "some one hurled a base, cowardly egg at me and it struck me in the chest."

"And what kind of an egg might that be?" asked a fresh young man.

AMERICA'S OPPORTUNITY.

There are altogether too many pessimists in this country who are kicking about the effect of the European war on business. Coming as it did immediately after a period of depression it kindled anew in the minds of some people the feeling that prosperity would not return for a long time. As a matter of fact the war's big cost will fall on Europe and as soon as the final treaties of peace are signed the commercial and financial ascendancy of the United States is bound to begin—then we will have to get busy and figure out ways and means to fill orders helping to rebuild Europe and we will have no time to lament over anything.

As a result of the war there has been a more or less disarrangement of business and finance, but it is now well in hand and will entirely stop as soon as peace is in sight—and that should be soon.

This war has given the United States a greater opportunity to increase its foreign trade than any other country has ever had. German foreign commerce was practically stopped and the commerce of other European nations at war is very severely affected. A large part of this trade will surely come to us if we are properly equipped to take it over. The opportunity presented requires a first-class merchant marine which this country has not had since the Civil War. With the re-establishment of a merchant marine the commerce of the United States will again be transported to all parts of the world in American bottoms, and we will become the greatest financial power in the world. We believe some new records for big business are not far ahead for the entire United States of America. Let us supply America's needs. This alone will make business improve greatly.

Certain-teed Roofing is for sale by dealers everywhere at reasonable prices.
